

Dear Patient:

Thank you for choosing the Dent Neurologic Institute, Western New York's premier Neurologic and Diagnostic Center.

Patients are required to arrive 20 minutes prior to their appointment time to complete the registration process. Thank you for your understanding!

In order to ensure a positive experience, please be prepared with the following items on the day of your visit. Failure to comply may result in our need to reschedule your visit

- ★ **Documents:** You must complete all the enclosed documents prior to your appointment time. **COMPLETION OF YOUR MEDICAL INTAKE FORMS IS CRITICAL IN ORDER FOR OUR PHYSICIANS APPROPRIATELY TREAT AND DIAGNOSIS.** If your visit is related to a work or motor vehicle accident, you must complete the application forms in their entirety.
- ★ **Insurance Card:** You must provide us with your insurance card.
- ★ **Payment:** If you have a co-pay or high deductible plan, you must bring payment with you; if you have a high deductible plan \$200 is required at the time of service; any remaining responsibility will be billed to you.
- ★ **Identification:** You must provide us with photo ID or two other forms of identification.
- ★ **Diagnostic Results:** Test results, diagnostic reports, films and CDs from all physicians treating you are **REQUIRED** at visit.

Be sure to visit our website at www.dentinstitute.com for insurances we accept and access to your on-line secured medical record.

Once again, thank you for choosing the Dent Neurologic Institute. If you have any questions, please feel free to call our Center at 716-250-2000.

Advance Notice is Required for all Cancellations

If you fail to cancel an appointment at least one business day prior; or you do not show for your scheduled appointment, you will be assessed a non-timely cancellation fee.

DENT NEUROLOGIC INSTITUTE

Instructions for Preparation of an Electroencephalogram (EEG)

What is an EEG?

Your doctor has ordered an EEG. This test allows your doctor to evaluate the electrical activity of your brain. There are several reasons your doctor may order this test. Most people have it done because they have had a seizure, passed out, or have unusual behavior.

What to expect during the test:

The test itself is painless and does not require any injections or special medications. Metal discs will be placed on your scalp, using a water-soluble paste. You will rest quietly in a reclining chair. You will be asked to open and close your eyes at various times. Toward the end of the test you will be asked to look at some flashing lights and breathe deeply and rapidly for a few minutes.

How to prepare for an EEG:

Please try to arrive 15 minutes before appointment time to fill out any necessary paperwork. Please note, if you have a **7 a.m.** appointment, there is **no need** to arrive 15 minutes early. Your hair must be clean for the test. Wash your hair either the night before or in the morning; please do not arrive with wet hair. ****DO NOT APPLY ANY CONDITIONERS, GELS, SPRAYS, HAIR WEAVES OR HAIR BRAIDS****

Unless instructed by your doctor, you may take your usual medication and eat your usual meals prior to the test.

Do not use any stimulants (coffee, tea, soda) starting the night before the test. Decaffeinated beverages are allowed and you may eat before the test.

For your Information:

The test usually takes between 1-1½ hours, depending on the study that you are having. After the test is over, the technologist will remove the electrodes and clean off as much paste as possible. If you are planning to go to work after the test, please note that your hair will not look as it did when you arrived.

The doctor that referred you for the EEG will have the test results within 48 hours.

- ❑ **Routine EEG**

- ❑ **Sleep Deprived EEG**

For this test you should stay up as late as you can the night before the test. If you can stay up all night that is great, but you should do the best you can (without stimulants). The doctor may have ordered this type of EEG because he wants to view your brain waves when you are tired. Patients who are having this test done should make arrangements to be driven to the appointment, as you may be too tired to drive yourself.

24, 48, or 72 Hour Ambulatory EEG (please circle hours requested)

This study allows your doctor to view your brain waves for an extended period of time. After the electrodes are applied, your head will be wrapped with gauze to help the electrodes stay in place for the test. You will be given a diary to note any unusual symptoms you may have while wearing the monitor. You **MUST** wear a button down shirt. You may wish to bring a scarf, hat or baseball cap to wear over your head. You will return the next day to have the electrodes removed and return the recorder. **You will not be permitted to shower while wearing the monitor, or get it wet in any way. Water will damage the monitor as well as put you at risk for injury.**

In-House Video EEG Monitoring (less than 12 hours)

In-House Video EEG Monitoring (24 hours)

Co-payments and Deductibles are due at time of service

24-Hour Cancellation Notice is Required for all Appointments

If you cancel an appointment without adequate notice (at least 48 hours) or do not come in for this scheduled appointment, you will be assessed a rescheduling fee.

*Thank you for choosing the DENT Neurologic Institute's EEG Department.
We look forward to caring for your medical needs.*

Please call 250-2000 and ask for the EEG Department if you have any questions.
